

Penetration Testing

Core Managed's Penetration Testing

Elevate your cybersecurity defenses with Core Managed's Penetration Testing, a proactive solution crafted to safeguard your digital assets from evolving cyber threats. We work diligently to identify any weak spots in your defenses before hackers do.

Thorough Reconnaissance

We start with a comprehensive reconnaissance phase, employing advanced tactics to map out your organization's attack surface and identify possible vulnerabilities.

Vulnerability Assessment

Transitioning to the vulnerability assessment phase, our tools scrutinize your network infrastructure, web applications, and endpoint devices, ensuring a thorough examination of potential weaknesses.

Realistic Exploitation

In the exploitation phase, we simulate real-world cyberattacks, actively attempting to exploit discovered vulnerabilities to assess their severity and potential impact on your organization.

Professionalism and Discretion

Throughout the testing process, Core Managed maintains the utmost professionalism and discretion, ensuring minimal disruption to your daily operations while adhering to strict ethical guidelines.

Comprehensive Reporting and Support

Upon completion, our service provides a detailed report with prioritized vulnerabilities and evidence-based risk assessments, empowering your team to take decisive action to fortify your cyber defenses.

Guidance and Partnership

Our commitment to lasting partnerships means we stand ready to assist you in the remediation process, offering guidance, recommendations, and retesting to validate the effectiveness of implemented security measures.

Enhanced Security

Proactive identification and remediation of vulnerabilities bolster your organization's resilience.

Confidence and Peace of Mind

Gain confidence in your security controls and enjoy peace of mind knowing your organization is protected.

Cost Savings

Addressing vulnerabilities proactively can save your organization money in the long run by avoiding the costs associated with data breaches and security incidents.

Customizable Solutions

Core Managed offers customizable options to meet diverse organizational needs, including specialized testing for compliance purposes and continuous penetration testing programs. Whatever size your company or specialized need you may have - we can craft a plan to match.

Why Choose Core Managed?

With Core Managed, you're entrusting your organization's cybersecurity to a team deeply committed to your success. Our services are more than just technical exercises—they're strategic investments in the resilience of your business. Our team will work hard to identify any problems before they become problems.
