

SharePoint Services

Core Managed's SharePoint Services

Empower your business collaboration with our SharePoint Services. Our tailored solutions leverage the power of SharePoint to streamline communication, enhance productivity, and drive collaboration across your organization.

Tailored SharePoint Solutions

Our SharePoint Services are customized to meet your organization's unique needs, whether you require document management, intranet portals, workflow automation, or business intelligence solutions. We work closely with you to design and implement SharePoint solutions that align with your business objectives.

Streamlined Document Management

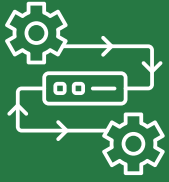

Our solutions provide centralized document repositories, version control, and document approval workflows, ensuring that your team has access to the right information at the right time. Say goodbye to scattered files and email attachments with our intuitive document management solutions.

Enhanced Collaboration Tools

Leverage features such as team sites, discussion boards, and social networking capabilities to facilitate seamless collaboration among your employees. With SharePoint, your team can share ideas, exchange information, and work together more effectively than ever before.

Customized Intranet Portals

We design and deploy customized intranet portals that serve as a centralized hub for company news, announcements, and resources. With personalized dashboards and role-based access controls, our intranet solutions empower your employees to stay informed and engaged.

Workflow Automation Solutions

Automate repetitive tasks, streamline approval processes, and improve operational efficiency with SharePoint workflows. Our workflow automation solutions help you eliminate bottlenecks and accelerate decision-making across your organization.

Business Intelligence Solutions

Harness the power of SharePoint to analyze data, generate reports, and visualize trends with interactive dashboards. Our business intelligence solutions provide valuable insights that drive informed decision-making and strategic planning.

Mobile Accessibility

Access your SharePoint sites, documents, and lists from anywhere, on any device. With responsive design and mobile-friendly features, our SharePoint solutions ensure that your team can stay productive whether they're in the office, at home, or on the road.

Security and Compliance

Our SharePoint solutions adhere to industry-leading security standards and compliance regulations, ensuring that your sensitive information remains safe and secure. From data encryption to access controls, we implement robust security measures to safeguard your valuable assets.

Seamless Integration with Microsoft 365

Seamlessly integrate SharePoint with Microsoft 365 applications such as Teams, Outlook, and OneDrive to enhance collaboration and productivity. With Core Managed, you can leverage the full capabilities of the Microsoft ecosystem to drive business success.

Expert Consultation and Support

Our team of SharePoint experts provides comprehensive consultation, training, and ongoing support to ensure the success of your SharePoint initiatives. From planning and implementation to user adoption and optimization, we're with you every step of the way.

Why Choose Core Managed?

With our expertise in SharePoint customization, deployment, and support, we help you harness the full potential of SharePoint to drive collaboration, productivity, and innovation within your organization. Experience the difference with Core Managed's SharePoint Services.
