

IT Backup & Recovery Services

Core Managed's IT Backup & Recovery Services

Data is the backbone of operations, protecting it against disasters, cyber threats, and system failures is paramount. Our IT Backup & Recovery Services offer robust protection and ensure business continuity and integrity in the face of possible disaster.

Safeguarding Your Core with Advanced Technology

Our Backup & Recovery solution employs cutting-edge technology to secure your data across all platforms—whether onsite, in the cloud, or hybrid environments. With an intuitive interface and seamless integration capabilities, our solution simplifies data protection, making it accessible for businesses of all sizes.

Disaster Recovery Planning

Tailored strategies aligned with your business objectives ensure minimal downtime and swift data recovery in the event of a disaster. Our comprehensive planning ensures your business can quickly bounce back from any unforeseen disruptions.

Secure Cloud Backup

Leverage the cloud's scalability and accessibility to securely store critical data, ensuring it's protected yet readily available when needed. Our cloud backup solutions provide a reliable and secure repository for your data, accessible anytime, anywhere.

Flexible Retention Schedules

Customizable data retention policies accommodate your business's legal, regulatory, and operational requirements. Whether short-term or long-term storage needs, our flexible retention schedules ensure compliance and data accessibility.

Centralized Management

A unified dashboard provides visibility into your backup operations, enabling efficient management of data protection tasks. Monitor, manage, and optimize your backup processes seamlessly from a single interface.

End-to-End Encryption

Comprehensive encryption of your data at rest and in transit guarantees its security from unauthorized access. With Core Managed, your data remains protected throughout its lifecycle, ensuring confidentiality and integrity.

Ensuring Business Continuity

Our Backup & Recovery Services are more than data protection; they're a comprehensive business continuity solution. Experience rapid data recovery, real-time data replication, and expert guidance in developing robust continuity plans tailored to your business needs.

Tailored to Your Industry Needs

Our services are versatile and customizable to meet the specific demands of various industries, including healthcare, financial services, manufacturing, and education. Protect sensitive data, ensure compliance, and maintain operational efficiency with Core Managed.

Data Protection Experts

Benefit from our expertise, proactive monitoring, compliance adherence, and scalable solutions. With Core Managed, you'll receive tailored data protection, around-the-clock support, and peace of mind, knowing your business is prepared for any eventuality.

Why Choose Core Managed?

In the digital age, where data vulnerabilities are ever-present, having a robust Backup & Recovery solution is essential. Experience unparalleled data protection and business continuity with our IT Backup & Recovery Services. Secure your digital future today with Core Managed.
